Dear Mr. Molhling:

On September 30-October 1, 2015, a representative of the U. S. Environmental Protection Agency inspected your facility. The inspection was conducted under the authority of Section 3007 of the Resource Conservation and Recovery Act.

I have reviewed the inspection report and determined that violations of RCRA were documented. At the time of the inspection, the inspector presented you with a Notice of Preliminary Findings which described the violations. I have reviewed your October 12, 2015 response to the NOPF and your February 25, 2016 response to the January 25, 2016 Request for Information letter and determined that no further submittals are required at this time. Please note that the EPA reserves its right to pursue appropriate enforcement actions, including penalties, for violations discovered as a result of this inspection, regardless of whether the violations were subsequently corrected.

I would like to remind you that your facility is responsible for maintaining compliance with all applicable hazardous waste regulations. If there are any questions regarding this letter, please contact me at (913) 551-7641.

Sincerely,

A handwritten signature in black ink, appearing to read "Nicole Moran".
